Contents

CHAPTER - 1 - BEHAVIOUR OF PHAGOCYTE LOCOMOTION

Membrane adherence molecules involved in phagocyte emigration.
Harlan J.M., Beatty P.G., Arfors K.E. 3

Heterogeneity and topographical asymmetry of formylpeptide receptor binding on polymorphonuclear Leukocytes.
Walter R.J.,Marasco W.A. 9

Cell shape, movement and chemokinesis.
Keller H.U.,Zimmermann A.,Cottier H. 21

Analysis of leukocyte chemosensory movement.
Tranquillo R.T.,Lauffenburger D.A. 29

A visual technique of assessment of chemotaxis applied to pharmacological studies.
Roch-Arveiller M.,Fontagne J.,Giroud J.P. 39

Lateral diffusion of chemotactic peptide receptors within the cytoplasmic membrane of human PMNs demonstrated by laser-scan-microscopy.
Bultmann B.,Pietrzyk C.H.,Melzner I.,Frey H. 47

Granulocyte chemotaxis: multiple assay screening in lymphoproliferative disorders.
Roath S.,Jayaswal U.,Roper S. 57

Comparison of leukotriene B4 and FMLP-induced chemotaxis and chemokinesis of human monocytes and neutrophils.
Ternowitz T. 65

Modulation of PMNs neutrophil function by laser irradiation.
Baiguera R.,Tarabini L.,Romeo G.,Massone A.,Jucci A.,Dell'Acqua R.,Sacchi S. 75

Differential effects of cell supernatants : lipopolysaccharide and interferons on U937 chemotaxis.
Obrist R.,Schmidli J.,Obrecht J.P. 81

Phenotype characterization of lymphocytes involved in experimental inflammatory reaction using a modified skin window technique.
Rossini S.,Romeo G.,Paulli M.,Rosso R.,Ricevuti G. 83

CHAPTER - 2 - PHAGOCYTOSIS, DEGRANULATION AND OXYGEN METABOLISM OF PHAGOCYTE

Neutrophil function during an inflammatory reaction.
Briheim G.,Stendahl O.,Dahlgren C. 89

The effect of storage on granulocyte function.
Lane T.A. 97

A new method to asses the neutrophil granulocyte phagocytosis kinetics by multichannel biophotometer assay.
Ferrea G.,Mantia E.,Manno G.,Malaguti F.,Loy A.,Terragna A. 105

Candida phagocytosis of murine macrophages: enhancement by a novel type of oxidant.
Woerly G.,Lombard Y.,Poindron PH.,Stahl K.-W. 109

Mononuclear phagocytes express receptors for IgE which mediate phagocytosis of IgE-sensitized erythrocytes.
Boltz-Nitulescu G.,Langer K.,Wiltschke C.,Gessl A.,Holzinger C.,Forster O. 113

Phagocytosis, the respiratory burst and the 5-Lipoxigenase pathway are independently regulated in human polymorphonuclear leucocytes.
Topley N.,Steadman R.,Petersen M.M.,Spur B.,Williams J.D. 123

Affinity labeling of neutrophil superoxide-generating oxidase with 2'-3'-dialdehyde derivative of NADPH.
Takeshige K.,Umei T.,Minakami S. 131

Modulation of oxygen-radical production from human neutrophils by calcium entry blockers.
Brunelleschi S.,Rubino A.,Tarli S.,Mian M.,Ledda F.,Giotti A.,Fantozzi R. 139

Oxidative and nonoxidative mechanisms in neutrophil-mediated cytotoxicity.
Sacchetti C.,Patrone F.,Dallegri F. 147

Patterns of H_2O_2 degradation in bovine and human vascular endothelial cells.
Dobrina A.,Bulli G.,Cecovini G.,Piccini P.,Patriarca P. 155

The free radical forming system of granulocytes and macrophages: further studies.
Bellavite P.,Serra M.C.,Dusi S.,Berton G.,Chilosi M. 161

The oxygen-dependent microbicidal system in human gingival crevicular neutrophils.
Kowolik M.J. 175

Thymus extract-induced modulation of superoxide anions production and bactericidal capacity of polymorphonuclear neutrophils/PMN/ in diabetic patients.
Wierusz-Wysocka B.,Wysocki H.,Wykretowicz A.,Szczepanik A. 185

The influence of spleen on bactericidal capacity and Fc-IgG receptors of passing polymorphonuclear neutrophils /PMN/.
Wysocki H.,Wierusz-Wysocka B.,Dotka J.,Klimas R. 189

Biochemical,functional and clinical aspects of hereditary human myeloperoxidase deficiency.
Dri P.,Cramer R.,Menegazzi R.,Patriarca P. 193

Variations of granulocyte chemiluminescence induced by different stimuli during cancer therapy.
Suttorp M.,Eymers B.,Rister M. 207

CHAPTER - 3 - BIOCHEMISTRY OF MEMBRANE ACTIVATION AND SIGNAL TRANSDUCTION

Effects of arachidonic acid on phagocytic cell function.
Henricks P.A.J.,Verhoef J.,Nijkamp F.P. 217

Diglyceride formation from phosphatidylcholine : a novel mechanism of signal transduction.
Daniel L.W.,Wilcox R.W.,Etkin L.A. 225

Phospholipid turnover and its relationship to kinase activation in the neutrophil.
Kramer C.M. 231

Phospholipid base-exchange in leukocyte membrane from patients with various inflammatory disorders.
Niwa Y. 239

Protein kinase C involvement in neutrophil function.
O'Flaherty J.T.,Nishihira J. 251

Phosphorilation in vivo and in vitro of a 47-kDa protein in human neutrophils by protein kinase C: abberration in patients with the autosomal form of chronic granulomatous disease.
Kramer I.M.,Verhoeven A.J.,Van der Bend R.L.,Weening R.S.,Roos D. 255

Identification of a biologically active site of human interleukin 1 beta.
Ghiara P.,Tagliabue A.,Nencioni L.,Censini S.,Villa L.,Volpini G.,
Boraschi D.,Bartalini M.,Ancilli G.,Perin F.,Presentini R.,Antoni G. 265

Zymosan and potassium induced activation of single voltage-dependent ion channels in membranes of peritoneal macrophages.
Somogyi R.,Ubl J.,Kolb H.-A. 275

Video intensification microscopy of binding and processing of the fluoresceinated N-formyl chemotactic peptide tritc-FNLPNTL by human neutrophils.
Schmitt M.,Keller H. 285

Lectin receptors and leucocyte common antigen expression in reactive and neoplastic mononuclear phagocyte system cells.
Rosso R.,Paulli M. 295

Partial purification of the b type cytochrome from bovine polymorphonuclear leukocytes.
Morel F.,Stasia M.-J.,Vignais P.V. 301

Lineage-specific proto-oncogene expression in human myelomonocytic cells.
Kreipe H.,Radzun H.J.,Heidorn K.,Parwaresch M.R. 309

Heterogeneous synthesis of prostaglandin and thromboxane among peritoneal macrophage subpopulations : modulation by Fc- and C3b-dependent bacterial phagocytosis.
Coquette A.,Vray B.,Boeynams J.M. 313

Expression of factor XIII subunit A in different types of human macrophages.
Adany R.,Kappelmayer J.,Muszbek L. 323

Flunarizine-Adenosine antagonism on neutrophil membrane as detected by ^{1}H NMR relaxation investigation.
Laghi Pasini F.,Orrico A.,Capecchi P.L.,Pasqui A.L.,Ceccatelli L.,
Di Perri T.,Gaggelli E.,Valensin G. 335

CHAPTER - 4 - PHARMACOLOGICAL AND CELL-CELL INTERACTION

Pharmacological modulation of phagocyte function.
Zanussi C.,Capsoni F. 345

Leukotrienes and granulocytes. A Review.
Palmblad J. 357

Therapy and the phagocytic cell.
Willoughby D.A.,De Brito F.B.,Gunning P. 367

Endogenous opioid peptides stimulate human phagocytes-functional and binding studies.
Fischer E.G.,Falke N.E. 373

Neuropeptides and their receptors: a new class of regulators in the mononuclear phagocyte system.
Wiedermann C.J. 381

Functional interactions between immunoglobulins and phagocytic cells.
Van Furth R. ,Leijh P.C.J.,Ince C. 391

Direct and indirect effects of antibiotics on phagocytic cell- bacterium interaction.
Gemmel C.G. 401

Effects of antibiotics on intramacrophagic survival of S. Aureus and B. Melitensis. An ultrastructural study.
Filice G.,Carnevale G.,Lanzarini P.,Orsolini P.,Soldini L.,Garavelli P., Rondanelli E.G. 411

Anti-inflammatory agents inhibit neutrophil cytotoxic activity towards erythroleukemic human cells.
Spisani S.,Giuliani A.,Gavioli R.,Cavalletti T.,Gambari R.,Lanza F.,Traniello S. 421

Assessment of granulocyte function in adult epileptic patients and in healthy volunteers undergoing phenytoin administration.
Marcoli M.,Ricevuti G.,Baiguera R.,Mazzone A.,Fasani F., Lecchini S.,Frigo G.M. 429

Effects of promazine on neutrophil functions.
Pacchiarini L.,Ricevuti G.,Mazzone A.,Rota Scalabrini D.,Pagliarino M., Grignani G.,Rizzo S.C. 437

Modulation of phagocyte function by phosphatidylserine.
Baiguera R.,Mazzone A.,Tarabini L.,Casali G.,Pasotti D.,Monaia C.,Pensato D. 445

Ion transport regulation by cyclic AMP in mouse macrophages.
Galli C.,Rosati C.,Diez J.,Hannaert P.,Braquet P.,Cragoe E.,Garay R.P. Jr. 451

Erythrocyte lysis by activated neutrophils. Mechanism and regulation.
Dallegri F.,Ballestrero A.,Frumento G.,Patrone F. 461

The interaction of mononuclear phagocytes with neoplastic cells: regulation of tumor cell susceptibility to killing and monocyte chemotaxis.
Colotta F.,Bersani L.,Balotta C.,Wang J.M.,Mantovani A. 467

CHAPTER - 5 - MONOCLONAL ANTIBODIES AND PHAGOCYTE FUNCTION

The role of the LFA-1, CR3, p150,95 glycoprotein family in monocyte adhesion associated functions, defined by subunit specific monoclonal antibodies.
Keizer G. D.,Te Velde A. A.,Visser W.,Figdor C.G. 477

Deficiency of OKM-1 antigen and abnormal polymorphonuclear leukocyte (PMN) function in a boy with recurrent bacterial infections
Capsoni F.,Minonzio F.,Venegoni E.,Ongari A.M.,Biolchini A., Plebani A.M., Bardare M. 485

Cross-ligation of monocyte Fc receptors and functionally important plasma membrane structures by monoclonal antibodies.
Mannhalter J.W.,Salzmann H.C.,Ahmad R.,Wolf H.M.,Eibl M.M. 495

Effect of polyclonal antibody against human interleukin 1 on natural killer cell activity.
Conti P.,Cifone M.G.,Alesse E.,Reale M.,Cancelli A.,Angeletti P.U.,Dinarello C.A. 501

CHAPTER - 6 - CLINICAL ASPECTS OF PHAGOCYTE FUNCTION

Radionuclide labelling of human leukocytes: experimental and clinical application.
Kelbaek H. 513

Neutrophil aggregation: present and perspective in medical pathology.
Ricevuti G. 521

Neutrophil and monocyte migration in Hodgkin's disease: in vitro and in vivo studies.
Schell-Frederick E.,Ziffling P.,Diehl V. 531

Skin window test in Aids related complex and in patients at risk for Aids.
Rizzo S.C.,Rossini S.,Mazzone A.,Ricevuti G. 539

Phagocytic functions in chronic bronchitis and lung carcinoma.
Grassi C.,Gialdroni Grassi G.,Fietta A. 545

Polymorphonuclear leukocyte (PMN) function and HLA-B27.
Repo H. 553

Phagocytic cell disfunction in atopic dermatitis and hyper-IgE syndrome.
Giannetti A.,Girolomoni G. 559

Phagocyte function in the neonate.
Chirico G.,Maccario R.,Ugazio A.G.,Burgio G.R. 565

Defects in neutrophil function in patients with myeloid disorders.
Mazzone A. 575

Neutrophil chemotaxis and acquired chromosome anomalies.
Pasquali F.,Ricevuti G.,Casalone R.,Mazzone A. 583

Neutropenia as a prognostic factor in myelodysplastic syndromes: study on 48 cases.
Bobbio-Pallavicini E.,Luliri P.,Ghizzi A.,Anselmetti L.,Baroli A., Nastasi G.,Spaghi A.,Gorini M.,Rizzo S.C. 591

Immune clearance of mononuclear phagocyte system in human glomerulonephritis.
Roccatello D.,Martina G.,Coppo R.,Piccoli G.,Sena L.M. 599

PMN chemotaxis inhibitory activity in rapidly progressive periodontitis.
Le Moli S.,Nisini R.,Fattorossi A.,Di Murro C.,Cattabriga M.,D' Amelio R. 607

Phagocyte function and lymphocyte subsets in primary hypothyroidism.
Vailati A.,Ricevuti G.,Marelli G.,Mazzone A.,Fasani F.,Giudici M.D., Fedele P.,Ferrari E. 613

Phagocyte function in Myastenia Gravis.
Lombardi M.,Piccolo G.,Tarantola M.,Tarabini L.,Pasotti D.,Cosi V. 621

Functional defects of phagocytes in hemophilic patients at risk of AIDS.
Gamba G.,Mazzone A.,Ricevuti G.,Longoni P.,Cascone G.,Ascari E.,Rizzo S.C. 625

Spontaneous autoimmune thyroiditis of obese strain (os) chickens: association with a decreased nonspecific immunosuppression and defects in macrophage function.
Kroemer G.,Schauenstein K.,Wolf H.,Faessler R.,Wick G. 631

Immunological and genotypic analysis of 15 patients with a proliferative disorder of large granular lymphocytes and granulocytopenia.
Pirelli A.,Allavena P.,Rossini S.,Di Bello M.,Rambaldi A.,Bassan R., Barbui T.,Pelicci P.G.,Mantovani A. 641
